Joint Medical Logistics 2010

Integrated Medical Logistics Group

Charter

- ◆ **Develop and sustain responsive and effective globally integrated medical logistics support systems for operation during peacetime and contingencies**
- ◆ **Address delivery and sustainment of joint warfighting and peacetime medical logistics capability across the continuum of worldwide military healthcare operations**

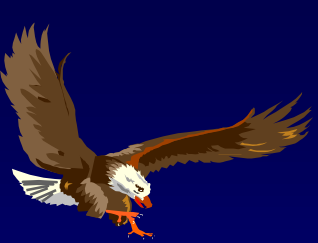

Joint Medical Logistics 2010

- National Security Strategy
 - ◆ Shape the International Environment
 - ◆ Respond to the Full Spectrum of Crises
 - ◆ Prepare Today for an Uncertain Future

Joint Medical Logistics 2010

- National Military Strategy
 - ◆ Rapid and Decisive Execution of National Security Strategy
 - Nuclear and Conventional
 - Regional Instability
 - Weapons of Mass Destruction
 - Threats to Unilateral Peace - Support Operations
 - Drug-Trafficking
 - Terrorism
 - Regional Wars
 - Natural Disasters

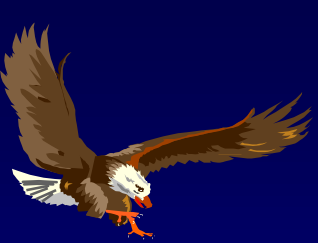

Joint Medical Logistics 2010

- **Joint Planning Guidance 2001 - 2005**
 - ◆ 2 Major Theater Wars
 - ◆ Multiple Smaller-Scale Contingencies
 - ◆ Substantial Peacetime Engagement
- **Current Conditions**
 - ◆ One MTW; minimum capability; moderate risk

Joint Medical Logistics 2010

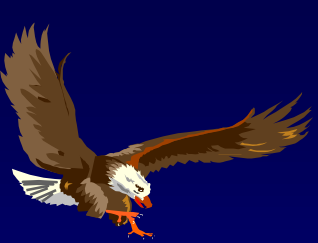

- Joint Vision 2010
 - ◆ Dominant Maneuver
 - ◆ Precision Engagement
 - ◆ *Focused Logistics*
 - ◆ Full-Dimensional Protection

Joint Medical Logistics 2010

➤ Focused Logistics

- ◆ Fusion of Information, Logistics, and Transportation Technologies
- ◆ Force Medical Protection
 - Tailored Units Provide Essential Care in Theater
 - Enhanced Care During Evacuation

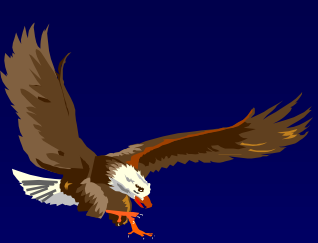

Joint Medical Logistics 2010

➤ Case for Action

◆ We are in the 2010 environment NOW

- Just-in-Time Industry
- Insufficient Funding
- Limited Air and Sea Lift
- Minimal Prepositioned Stocks
- Smaller Medical Presence

Joint Medical Logistics 2010

Industry to Warfighter

CONUS

Theater

Strategic

Operational

Tactical

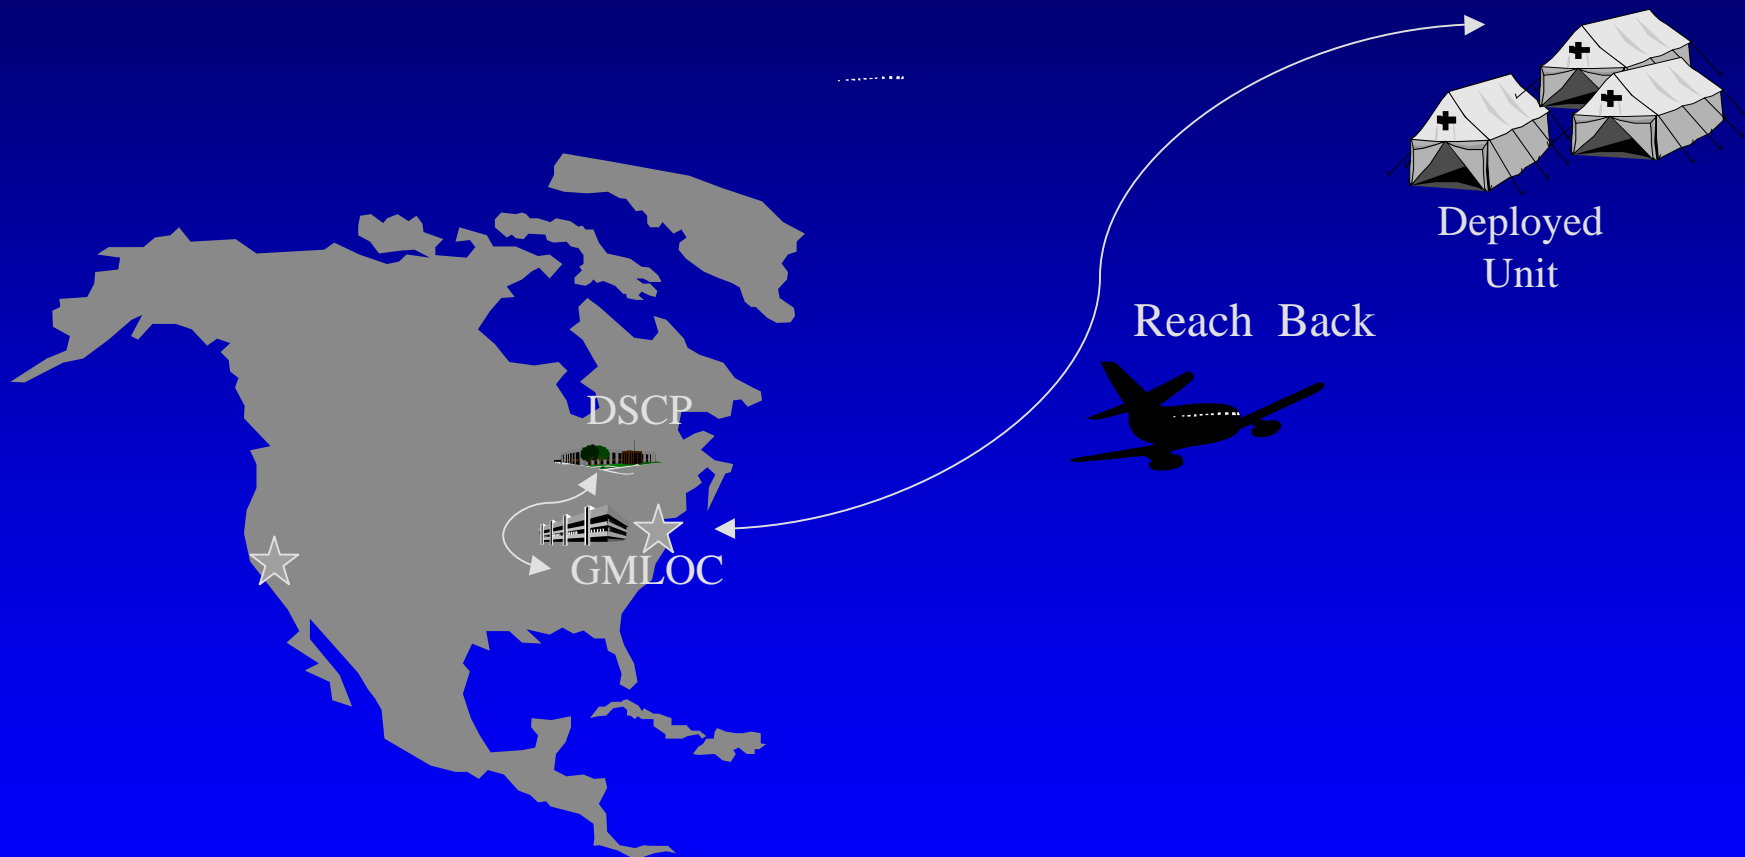

- DLA
- Logistics Agencies
- Industry
- Joint Staff

- Global Medical Logistics Operations Center

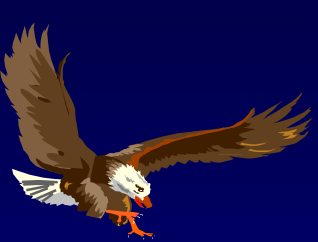

- Core Medical Logistics C² Capability
- Joint Medical Logistics Management and Distribution

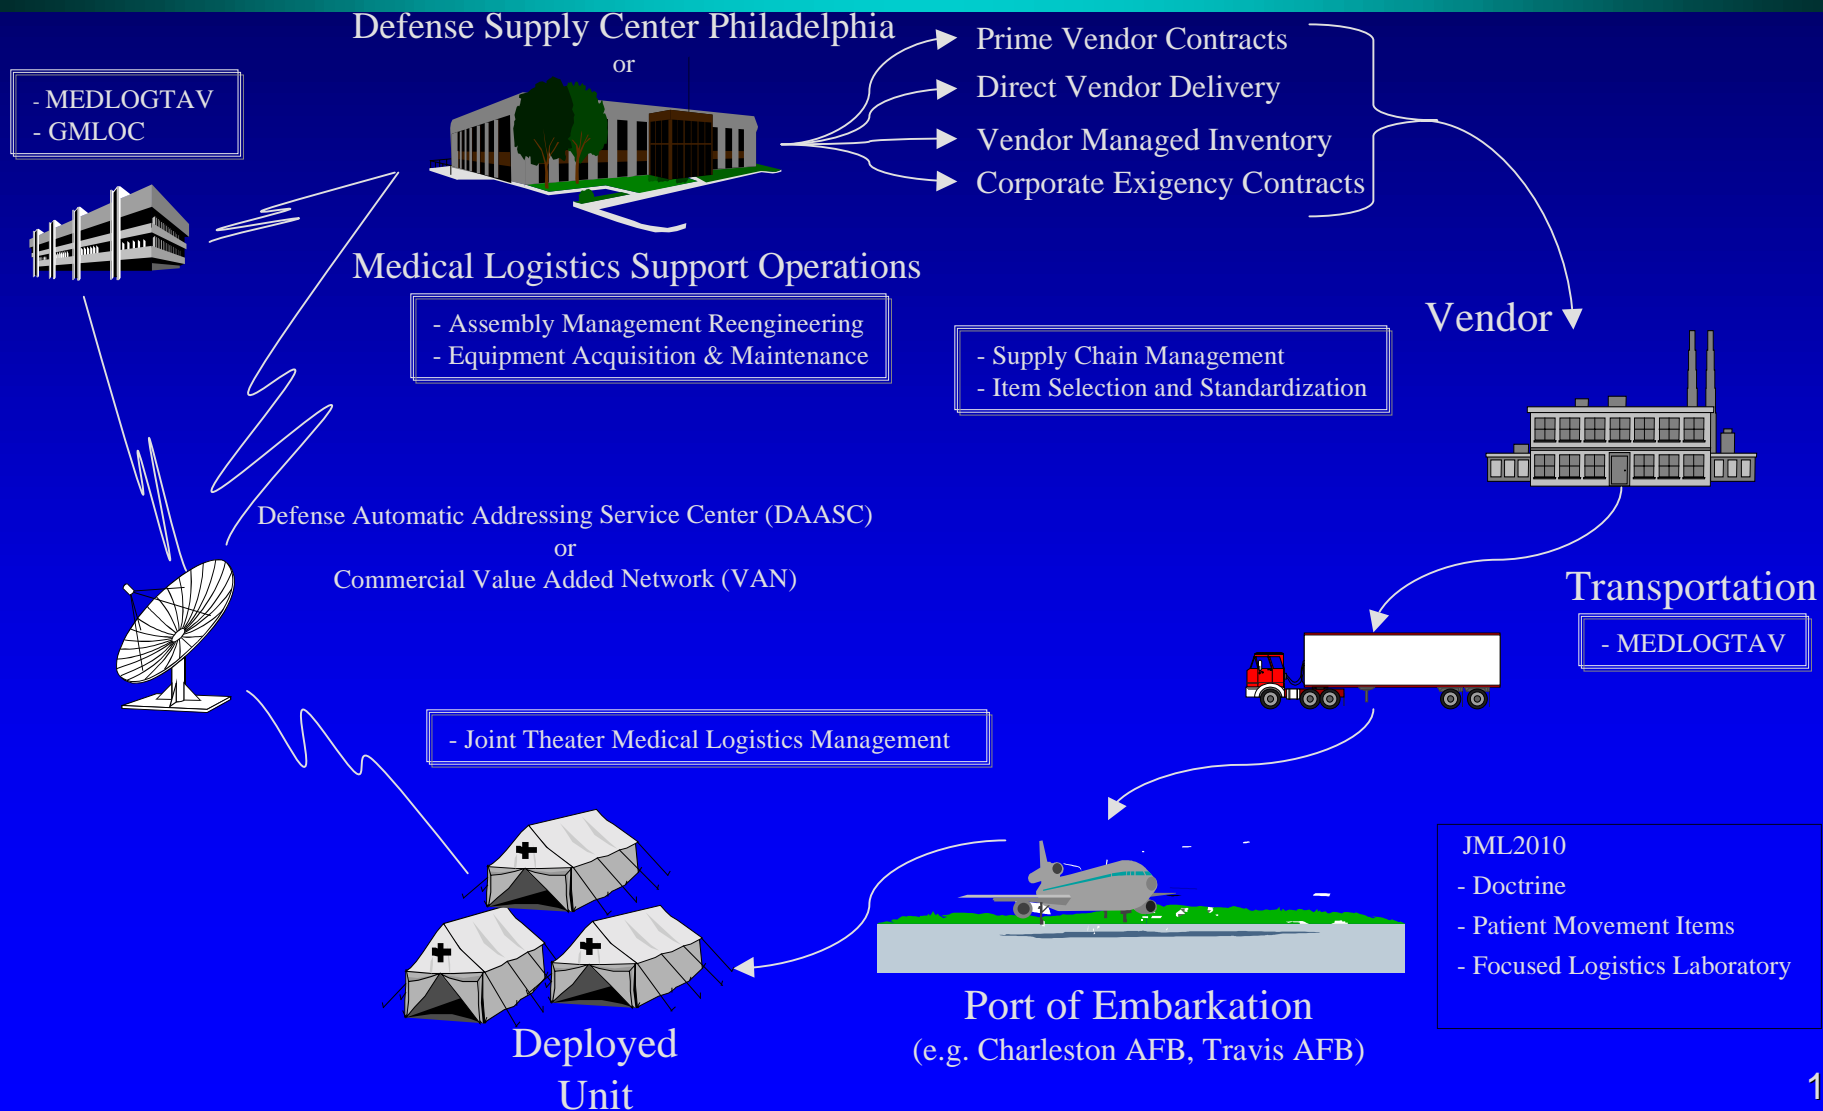

JOINT MEDICAL LOGISTICS 2010

★ - Medical Logistics Support Operations

JOINT MEDICAL LOGISTICS 2010

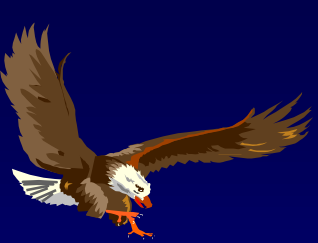

Joint Medical Logistics 2010

Doctrine

Participate in the development of Joint and Service doctrine that enables JV 2010, Global Engagement, Force XXI, From The Sea, Operational Maneuver from the Sea, and Naval Sea Based Logistics

Joint Medical Logistics 2010

Supply Chain Management

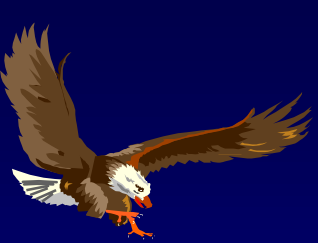

Provide business systems modernization and improved acquisition instruments to reduce inventories and readiness costs; improve access to the international healthcare supply chain

JML 2010

Assembly Management Reengineering

**Provide technologically and clinically relevant
assemblages, usable across the full spectrum
of military healthcare needs**

Joint Medical Logistics 2010

Item Selection and Standardization

Provide simpler, clinically superior selection and standardization processes to support the acquisition and use of the most current, cost-effective, and supportable healthcare materiel for all DoD operations in peace and war

Joint Medical Logistics 2010

Equipment Acquisition and Maintenance

**Provide systems for the worldwide, quad-Service
management of medical equipment items used in the
treatment and hospitalization of patients throughout the
military healthcare system**

Joint Medical Logistics 2010

Medical Logistics Total Asset Visibility

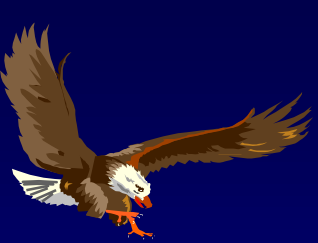

**Provide integrated, comprehensive, and timely
information about status, location, and availability of all
medical products in use or for potential use by military
forces worldwide**

Joint Medical Logistics 2010

Patient Movement Items

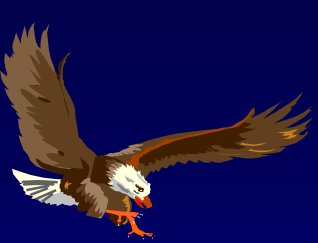

Provide systems for the global management of patient movement items used in the evacuation and transport of patients through tactical and strategic levels of the military healthcare system

Joint Medical Logistics 2010

Jointly Augmented Medical Logistics Management Center

Develop tightly integrated, highly responsive theater support for quad-Service military medical logistics operations, relying on information, communication, asset visibility, rapid distribution, flexibility, maneuverability, and minimal buffer stocks

Joint Medical Logistics 2010

Global Medical Logistics Operations Center

**Provide a quad-Service, integrated support capability
at the intermediate level of medical logistics**

Joint Medical Logistics 2010

Focused Logistics Laboratory

In conjunction with operators in the field, develop and implement prototype business practices and information systems to support deployments “on the fly” during contingencies, exercises, and other operations

Joint Medical Logistics 2010

Current Initiatives

- ◆ **Joint Medical Asset Repository**
- ◆ **Joint Medical Assemblage Planner**
- ◆ **Global Medical Logistics Operations Center**
- ◆ **Deployment of PMI network**
- ◆ **Dual certification of PMI equipment**
- ◆ **Development and Sourcing of Joint-Service Medical and Surgical Surge Requirements**
- ◆ **Participation in Joint Logistics Warfighting Initiative**

Joint Medical Logistics 2010

Current Initiatives

- ◆ **Participation in Joint Staff Medical Logistics Surge Study**
- ◆ **Readiness Management Application**

Summary

- We are in the 2010 environment NOW
- Aligned JV 2010/Focused Logistics
- Seamless Industry to Warfighter
- Integrate Current and New Initiatives
- Joint Medical Logistics Action Plan
